About Duranite®

Duranite® is Gescova's solution for durable table tops.
Duranite® is made from high quality fibre cement board wich is coated with a multi-layer polymer based paint.
Duranite® can withstand all weather conditions and making it the ideal replacement for natural stone.

Duranite® is scratch restistant. The quality of the surface can be attributed to a unique hardening process wich each table top undergoes in the final stages of coating. This finishing process also contributes to the excellent weather resistance and low maintenance of duranite table tops.
